EDUCATION PARTNERSHIP

American Library Association, Epsilon Sigma Omicron, Mentoring USA,
Reading Rockets
Are the partners with GFWC Education

According to the 2010 reporting, I am proud to say, many clubs participated in one or all of these partners.

Some of the interesting projects include:

ESO book clubs are being formed and meetings are being held monthly which include lunch and speakers. We actually have one of the clubs that travels to some of the cities that they have read about to see the locations that the author referenced.

Several clubs held program meetings to recognize the local authors in their cities and to try and encourage members to join their existing ESO club.

Many clubs are involved with their local public schools in several different mentoring programs. Money has been sent to our partners and websites are being used to download information that is being shared with local schools.

Club newsletters are being used to write Educational articles.

Let's continue to work with our partners in 2011. Go to their websites to choose contacts and information that will be very helpful to you in the coming year.

If you should need any information from me please feel free to contact me at:
