

GFWC Florida Arts CSP Bulletin #4 2020

Ladies – it was an honor to read your reports to see how GFWC members are making a creative difference in their communities. From visual to performing arts, our Clubs helped keep the Arts alive and well throughout the state of Florida!

In 2019, 5070 GFWC club members did 841 projects in 66,382 hours for \$70,161 Dollars with \$83,269 In-Kind donations.

The level of creativity was astounding and we were impressed by those of you who: thought outside the box and worked with your sister GFWC clubs to make a difference in your communities by bringing art awareness to the forefront.

Visual arts and performing arts were highlighted as our GFWC Florida Clubs made contributions to the future through scholarships to students. Many Clubs had Arts & Crafts Shows which brought a wide variety of skilled artisans to our communities. Our members had dinner theatres and singing groups provide performances to nursing homes and others in our communities.

We thank those of you who made an extra effort to include Arts4All formerly VSA in your Arts CSP projects and support their efforts to promote artists with disabilities.

The Arts are alive and well in Florida because of our great GFWC members and all you do. Thank you!

Respectfully Submitted
